Newsletter of the

CENTRAL ARIZONA CACTUS AND SUCCULENT SOCIETY

APRIL–MAY, 2001

FROM YOUR PRESIDENT—MAY 2001

The 2001 Convention of the Cactus and Succulent Society of America is coming up July 1–5 in Los Angeles. Many of our members will be there. Will you? We have CSSA brochures available at the meetings, and the Web page is <http://www.cssainc.org>.

We congratulate member and past president Scott McM, who has been hired by the Desert Botanical Garden as a horticulturalist responsible for trees and shrubs.

All of this newsletter is devoted to results from this year's Show. Awards will be made at the May 20 meeting.

This month's meeting features the silent auction. Members donate plants with labels and a bid sheet. Put a suggested opening bid on the bid sheet. The plants are placed on tables. Each table has a timer. For 10 minutes people look at the plants. Then, the timers are set, placed under cover so nobody knows how long they will go, and bidding begins. You bid for a plant by writing a bid on the bid sheet and your name. You must overbid the previous bid; if you are the first bidder, just put your name next to the suggested bid. When a timer goes off, that table's bidding is closed. When all timers have gone off, take the bid cards for plants you have bought to the front of the room and pay the treasurer.

Please remember to bring your checkbook or cash to pay for plants. And, bring a box to carry home your plants.
