CENTRAL ARIZONA CACTUS AND SUCCULENT SOCIETY
JULY 1994
NEWSLETTER

This month
This month's program is a presentation by Rudy Lime, on the bonsai of caudiciforms. Rudy is a nationally know speaker and demonstrator who is visiting us from California. **Note that the meeting time has been moved up to 1pm.** Members are encouraged to bring one caudiciform plant with them that they would be interested in trying to bonsai. We would ask that you not bring plants traditionally used for bonsai, since our time is limited with Rudy, and we'd like to keep to his topic. Also, please come ready with your questions, so we can each benefit from Rudy's expertise. As is typical, we will meet in Webster Auditorium.

A board of directors' meeting will be held at 12:30 in Archer House. Major topic of discussion will be proposed revisions to bylaws. All members are welcome.

Last month
Thanks to Tom Mills for presenting to us on the Texas Greenhouse Company, and to Chet Andrews for speaking about the McDowell Sonoran Land Trust.

We raffled a lovely Mammillaria, which was won by Gard. I don't think you can graft that on an Agave, but there's no harm in trying.

Our latest issue of the Central Spine is available. Thanks, as always, to Vera Gamet for her hard work and continued commitment. Very could use some help in getting out future issues. If you would like to help her, or to become the editor next year, please contact Vera Gamet or Jim Elliott.

Coming up
Our August program will be our own Gard Roper, speaking on Agaves. We will all be interested to see your presentation, Gard!

Please welcome the following renewal member:
Rhonda Forsha, 6912 E. Sandra Terrace, Scottsdale, AZ 85254

Please note that our Librarians' address has changed: Rod and Lisa Northrop, 816 E. Baylor, Chandler, AZ 85225; phone 917-2046

As always, call any of the board members (whose names and numbers are in the membership directory) with questions, comments, contributions.
