
CENTRAL SPINE

April/May, 2002

FROM YOUR PRESIDENT—MAY 2002

Nights still cool. *Monilaria*, *Mitrophyllum* hibernating dry in the house till November. I mist other winter-growing mesembs every evening, stopping when nights go over 70. I'm still watering and fertilizing almost all cacti heavily. *Cleistocactus*, *Echinocereus*, *Echinopsis*, and *Mammillaria* are blooming nicely. Most of the caudiciforms are awakening.

Coryphantha ramillosa – A Jim Davis Plant

If you haven't paid your 2002 dues you won't be reading this. Remind your friends: \$20 individual and \$25 household, payable to CACSS, PO Box 8774, Scottsdale, AZ, 85252-8774.

The IOS Congress was a success. I met several interesting people who promised me seeds (Gloat, gloat) and invited me to visit them in their home countries if I make it that way. The members enjoyed our Show, which they viewed Sunday, April 7.

Our Show was a success. Many Novices entered for the first time and entered some beautiful plants. Those of you who had your maiden show: Tell everybody else how easy it is! Our Novices will be Masters some day.

Our plant sale was a great success as well. John & Dorothy, Woody & Cathy, and Dick & Lupe were surprised at how well sales went and asked if they could return next year. Susan Fortune, Steve Holmes,

the Smiths, and Julie Turko were also pleased. We will use the money we raised (accounts are still being settled as I write this) for bringing in speakers from outside Arizona. What do you want to hear? From whom? Call me.

Our summer buying trip to San Diego will be August 3-5. Remember, it's a lot cooler there! We will leave very early Friday, drive there and go to one nursery that afternoon, check in to the motel, and go to nurseries all day Saturday and again Sunday until about mid-day. We will go to one wholesale pot shop as well. We will stay at a budget motel and total cost would not be too high, probably under \$125 per person for bus plus room. Contact Cathy or me. We would need about 20 participants to make this work. Which nurseries do you like?

This month's meeting features the silent auction. Members donate plants with labels and a bid sheet. Put a suggested opening bid on the bid sheet. The plants are placed on tables. Each table has a timer. For 10 minutes people look at the plants. Then, the timers are set, placed under cover so nobody knows how long they will go, and bidding begins. You bid for a plant by writing a bid on the bid sheet and your name. You must overbid the previous bid; if you are the first bidder, just put your name next to the suggested bid. When a timer goes off, that table's bidding is closed. When all timers have gone off, take the bid cards for plants you have bought to the front of the room and pay the treasurer.

Please remember to bring your checkbook or cash to pay for plants. And, bring a box to carry home your plants.
